

New By-Laws Proposed for the College

January 27, 2012

On January 18, 2012, the Council of the College of Optometrists of Ontario approved for circulation proposed new by-laws for the College to replace the current by-laws. As required by the RHPA, Section 2, these draft by-laws are being circulated to members (and stakeholders) for 60 days prior to approval by Council. Among the many proposed changes are new by-laws related to the governance of the College, and the addition of a code of ethics for members. A schedule of fees is appended to the by-laws, which proposes an increase of 10% to all fees to cover general inflationary trends that have occurred since the last fee increase in 2008.
